## FOR IMMEDIATE RELEASE

### Third Weekend Partial Closure Scheduled for I-5

*Information available at [FixSac5.com](http://FixSac5.com)*

SACRAMENTO — The California Department of Transportation (Caltrans) is continuing a series of weekend partial highway closures for the SAC 5 Corridor Enhancement Project this weekend.

This project includes \$48.3 million in funding from Senate Bill (SB) 1, The Road Repair and Accountability Act of 2017. SB 1 provides \$5 billion in transportation funding annually split between the state and local agencies. Road projects progress through construction phases more quickly based on the availability of SB 1 funds, including projects that are partially funded by SB 1. For more information about other transportation projects funded by SB 1, visit [www.rebuildingca.ca.gov](http://www.rebuildingca.ca.gov).

Work on southbound Interstate 5 will temporarily close two lanes in the southbound direction this weekend from Friday night into early Monday morning. Signed detours will be in place, but Caltrans urges motorists to use State Route 99 as an alternate route to navigate around the closure and to plan for additional travel time.

#### **SCHEDULE:**

**9 p.m. Friday, July 9 through 5 a.m. Monday, July 10.**

#### **LOCATIONS:**

Southbound SAC I-5 from north of Seamas Ave. to 43rd Ave. (Two lanes will remain open.)

#### **RAMPS CLOSED:**

Seamas Ave (Exit 515) On- and Off-ramps closed  
43rd Ave. (Exit 514) Off-ramp closed

#### **DETOUR:**

Use Florin Rd exit (Exit 513) to turn around back onto northbound I-5 to Seamas and 43<sup>rd</sup>

The around the clock construction work will require heavy equipment and commercial trucking. Nearby residents can expect loud construction type noise and commercial truck back-up beeping noises during day and nighttime hours. The contractor is scheduled to

# TRAFFIC ALERT

perform paving and striping.

The ongoing work has added sound walls in 2020 and scheduled to rehabilitate 67-lane miles of roadway, will build 23 miles of carpool lanes, and improve the existing electrical and drainage systems along this corridor.

Motorists traveling through the work zone should expect lane restrictions and should be aware of commercial work vehicles traveling in and out of the area. The work zone speed limit has been reduced to 55 mph and the California Highway Patrol will be present for traffic enforcement.

For more information on this project text 'FixSac5' to 74121 or visit [www.FixSac5.com](http://www.FixSac5.com). Caltrans encourages the public to follow construction updates on Twitter and Facebook @FixSac5. Caltrans advises motorists to "Be Work Zone Alert."

Work is scheduled to begin as listed but subject to change due to traffic incidents, weather, availability of equipment and/ or materials, and construction related issues. Check out Caltrans' "Caltrans QuickMap" for current road conditions at [quickmap.dot.ca.gov/](http://quickmap.dot.ca.gov/) or download the free QuickMap app on the App Store or Google Play. Motorists also can call the California Highway Information Network automated phone service at 1-800-427-ROAD (7623).
